SUMMARY

Full Stack Developer with experience building scalable web applications and Chrome extensions. Skilled in developing full-stack solutions, optimizing performance, and deploying secure applications. Collaborative team player delivering high-impact projects on time. Passionate about innovative, user-centric solutions using emerging technologies.

EXPERIENCE

Full Stack Development Trainee

J-Spiders | January 2023 – July 2023

- Completed 7-month intensive training in Full Stack Development, covering front-end and back-end technologies such as HTML, CSS, JavaScript, React, Node.js, and database management.
- Gained hands-on experience in developing end-to-end web applications and building RESTful APIs.

Software Development

GSTech Technology Pvt Ltd | August 2023 – Present

- Currently working as a Software Developer, focusing on designing, developing, and deploying full-stack solutions using modern frameworks and technologies.
- Improved the efficiency of existing applications by implementing scalable, secure, and maintainable code, while enhancing performance and optimizing the codebase.
- Collaborated with cross-functional teams and senior developers on live projects to deliver user-friendly, feature-rich applications that align with business goals.
- Contributed to building and maintaining web applications, participating in code reviews, troubleshooting, and gaining practical exposure to software development cycles, teamwork, and delivering projects within deadlines.

EDUCATION

Bachelor of Technology in Mechanical Engineering.

Maulana Abul Kalam Azad University, West Bengal, India.
College of Engineering and Management,Kolaghat. 2018-2022.
CGPA -8.36

PROJECTS

- Developed 15+ Chrome extensions, including Spending Calculator, Ad Collector, Price Tracker, Web Scraper etc. showcasing expertise in creating functional and user-friendly tools.
- Built multiple full-stack web applications for restaurant comparisons, ad management, coupon aggregation, SEO tools, and professional services, deployed on GCP for enhanced performance and scalability
- Created Shopify applications, available on the Shopify App Store.
- Developed mobile and real-time applications, including gallery photo viewers with React Native, media streaming apps with WebSocket and PeerJS, and business tools using Power Apps and Dynamics 365.

ACHIEVEMENTS

- Achieved over 8k users for Spending Calculator Chrome extension and 5k users each for Ad Collector and Image Converter extensions, reflecting strong user engagement and product-market fit.
- Drove 10k+ monthly visitors to Fooddy, enabling users to compare restaurant deals across platforms like Zomato and Swiggy for seamless decision-making.
- Generated 15k+ monthly traffic for AdSpyder, empowering marketers with competitor ad research and campaign optimization tools to boost click-through rates and conversions.
- Attracted 8k+ monthly visitors to SEOSpyder, helping website owners identify SEO issues and improve rankings through AI-driven audits and optimization strategies.
- Demonstrated excellent teamwork and collaboration skills to optimize code flow and ensure efficient project management across multiple full-stack and extension projects.
